

# ASSET™ LIFE CYCLE ASSESSMENT

## AMCOR HEALTHCARE™

### AMSKY™ BLISTER SYSTEM

#### What Is Lifecycle Assessment (LCA) and Why Do You Need It?

Uses data to measure the environmental impact of each stage of a product's life cycle

Applies a Carbon Trust-certified LCA model, and provides complete and fact-based comparison of different packaging options

Gives you visibility of the true impact of your packaging choices

#### AmSky™ Blister System Lifecycle Comparison

##### Baseline Packaging PVC Blister

10mil PVC + 1mil foil lidding

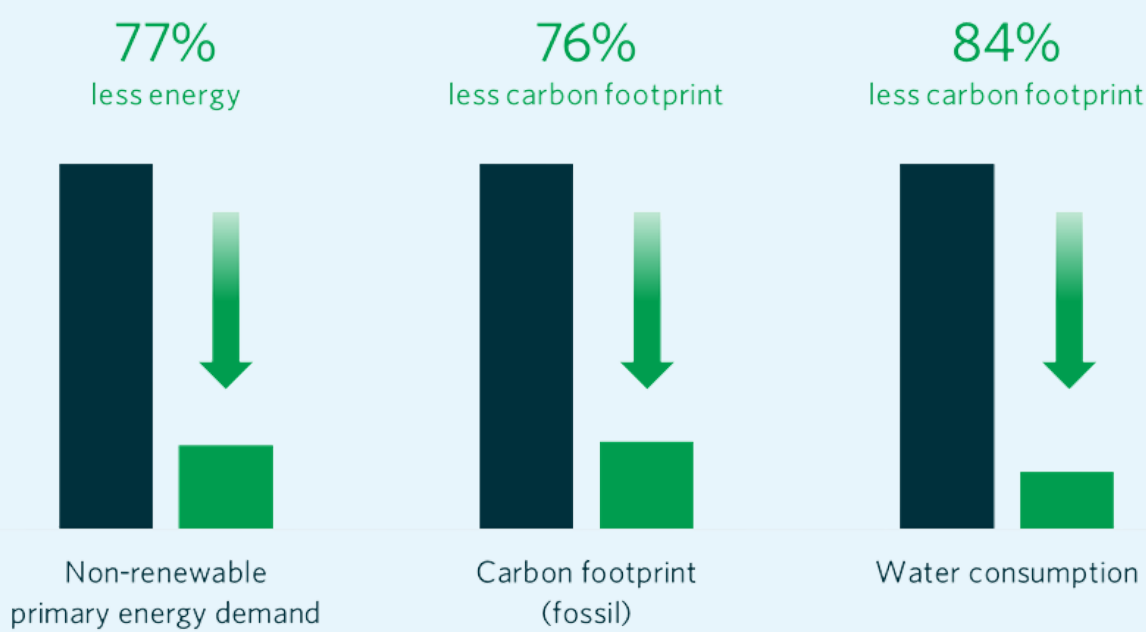

##### Proposed Packaging AmSky™ Blister System

12mil blister + 2.75mil lidding

#### Relative Impact <sup>(1)</sup>

(1) End of life assumptions: Baseline Packaging is landfilled, AmSky™ Blister System is 100% recycled

#### The Environmental Savings Add Up!
